Introduction

This guide will help you get ready for your trip to KMAC Museum. You'll learn about the museum, some things you can do during your visit, and some people who work at the museum who can help when you visit.

Entrance

You are going to KMAC Museum, where art is the big idea and craft is the process. You will see artwork made by artists who are living and creating today. You might see paintings, sculptures, photography, fiber art, or even video. You'll be able to look at the artwork and talk about it with friends or family. You can also play and create your own artwork in Studio 715.

Front Desk

You should first check in at the information desk and learn about the artwork or if there are special activities to do. There might be other people in line, so you should patiently wait your turn. If you have a coat, you can leave it on the coat rack. After you talk to someone at the information desk, you can go upstairs to look at the art, make art and play in Studio 715, look at things in the Shop, or buy a drink at the Café. You can also check out a sensory-friendly bag to take through the museum.

During special events, the museum might be crowded. You can go to KMAC's website and check if there is anything happening when you visit.

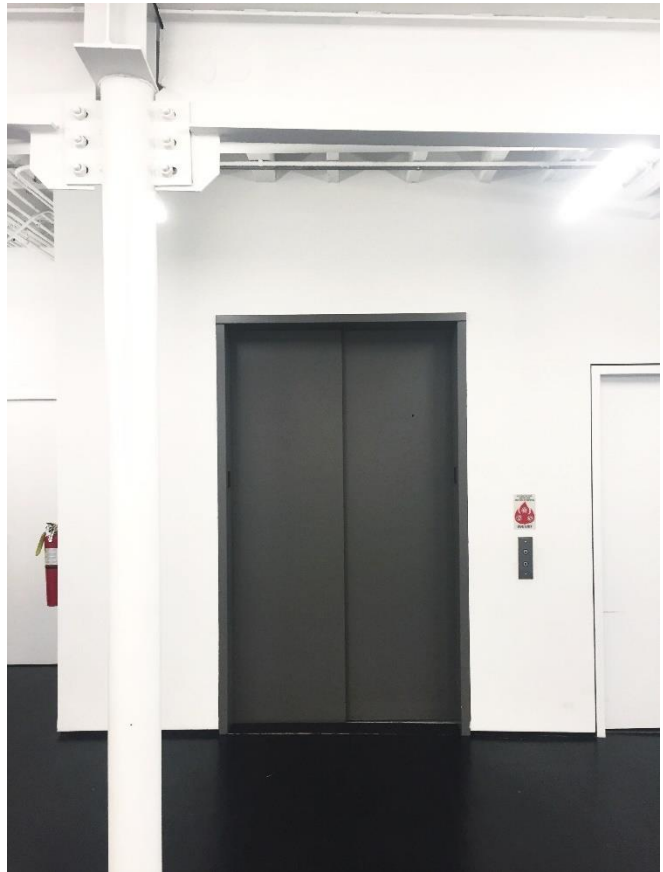

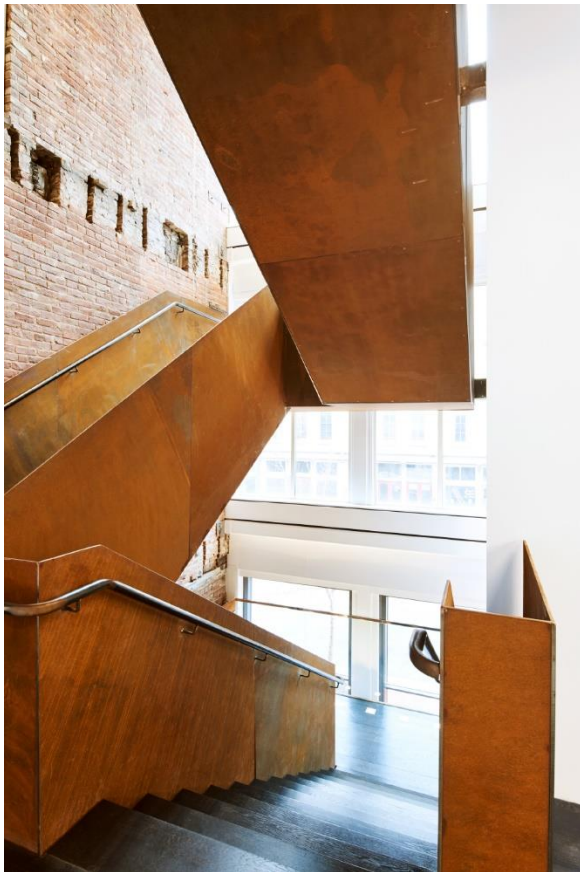

Helpful People

The people who work at KMAC Museum are friendly and happy to help. These people will work behind the information desk, wear a nametag, or wear an apron. When you have questions, you can ask a Visitor Services Associate or Museum Guide. Sometimes you can do special art activities and a Museum Educator will help you create.

Getting Around

Once you have checked in at the front desk, you can take the stairs or elevator up to the 2nd and 3rd floors. There are restrooms for one person located on the 1st and 2nd floors on the left-hand side.

Galleries

When you visit the galleries, remember your museum manners:

1. Take your time to enjoy – walk through the gallery so you can get a good look at each artwork.
2. Give the art some space – stay an arm's length away and don't touch.
3. Talk about the art but use your inside voice.
4. Food and drink can be enjoyed on the 1st floor, but not in the galleries.

There might be a tour happening when you visit. You can join the tour or look at something else and wait for the group to move.

If you have any questions, you can ask someone who works at the museum.

Studio 715

You can visit Studio 715 on the 1st floor to sit down and create. Studio 715 is open during regular museum hours. If you have questions about any of the activities, you can ask your friends or family or someone who works at the museum.

Leaving KMAC Museum

Some people want to spend hours at KMAC Museum. Others just want to take a quick look. Both are good ways to see the museum. Once you're ready to leave, you should pick up your coat if you left it on the coat rack downstairs. Then, you can take the front exit onto Main Street.

Additional Information

At KMAC Museum, we are committed to creating a welcoming and accessible art experience for our visitors.
